

Holiday Giving Wish List

We cordially invite you to help us check off items on our Holiday Giving Wish List.

Full Life is dedicated to enhancing the quality of life for frail elders and people with chronic illnesses and disabilities through our health and social services programs. Full Life Care serves more than 3,100 individuals each year through our six locations, and at our clients' homes or in the community.

Full Life Care is expanding services into South King County and has grown our existed programs over the past year, thus increasing the number of clients served each year. The generous support from the community allows us to broaden our services and provide our clients the care that matters most to them.
